## Summary

B.Tech Computer Science student at BVRIT Hyderabad with a strong foundation in Java and Data Structures & Algorithms (DSA). Familiar with Python and C, with a keen interest in software development, machine learning, and applied problem-solving.

## Education

|                                                                          |                |
|--------------------------------------------------------------------------|----------------|
| <b>B.Tech in Computer Science and Engineering</b>                        | 2024 – Present |
| <i>BVRIT Hyderabad College of Engineering for Women – CGPA: 9.3/10.0</i> |                |
| <b>Intermediate</b>                                                      | 2022 – 2024    |
| <i>Sri Chaitanya Junior Kalasala – CGPA: 9.85/10.0</i>                   |                |
| <b>SSC</b>                                                               | 2022           |
| <i>Nalanda Vidya Bhavan High School – CGPA: 10.0/10.0</i>                |                |

## Technical Skills

- **Programming Languages:** Java, Python (Familiar), C (Familiar)
- **Core Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP)
- **Database Fundamentals:** SQL Basics (Primary Key, Foreign Key)
- **Tools & Platforms:** Git (Basic), GitHub, VS Code, Tableau, Eclipse, Overleaf
- **Soft Skills:** Problem Solving, Team Collaboration, Time Management

## Coding Profiles

- **LeetCode:** [AFIAREFAL](#)
- **CodeChef:** [tight\\_grape\\_26](#)
- **Codeforces:** [AFIAREFAL](#)

## Projects

- **Farm Vision App (Computer Vision)** – Developed a mobile application for real-time crop disease detection using computer vision techniques for image analysis during Dr. Kalam’s Legacy Hackathon 2025. **Winner.**
- **Myntra Dress Price Predictor and Recommender (Machine Learning)** – Collected structured product data using web scraping; performed data cleaning and exploratory data analysis (EDA), and built a machine learning model for price prediction along with a recommendation system. **Winner.**
- **Cognitia AI Assistant (Full Stack, LLM Integration)** – Architected an end-to-end full-stack chatbot web application featuring an interactive UI, backend service, and MongoDB integration. Integrated the Groq API for LLM-based responses and managed full client-server communication.

## Internships

- **1M1B Green Internship** – Collaborated on sustainability analysis, designed green project development solutions, and developed interactive data dashboards using Tableau in partnership with Salesforce.

## Achievements

- **Winner** – Dr. Kalam’s Legacy Hackathon 2025
- **Winner** – Machine Learning-Based Myntra Project Hackathon

## Certificates

- **Object-Oriented Programming (OOP) & Data Structures** – CodeChef
- **Full Stack Foundations (HTML, CSS, JavaScript)** – Infosys Springboard
- **iCBIT 2024** – Chaitanya Bharathi Institute of Technology
